Mr. Dennis Forney presented a funding request on behalf of the independent libraries of Sussex County. He stated that additional funds would help sustain the fine library system that exists in Sussex County.

**M 079 04

Acquisition
Proposal**

Mr. Forney commented that Sussex County's rapid growth is placing increasing demands on the libraries and its personnel; that the retirement population is rapidly growing and retirees are among the strongest users of the libraries; that expenses continue to rise; that to keep quality staff, programs, and facilities, needs must be met; and that many building programs have been underway or are underway.

**Adminis-
trator's
Report**

Mr. Forney asked the County Council to consider dedicating the County's Capitation Tax to the libraries. He noted that this additional funding would help narrow the gap in library funding in Sussex County – not only between County-owned libraries and independent libraries, but also between the independent libraries themselves. Mr. Forney stated that this would be accomplished by a formula that has been developed and is supported by the libraries.

Old

Several representatives of the independent libraries addressed Council and stated that operational costs are growing; that money for libraries should be thought of as an investment and not an expense; that there are growing technology needs in the libraries; that more staffing is needed; and that a lot of the personnel in the independent libraries do

Business not have health benefits.

Mr. Stickels noted that the individual library boards make the decision on employee benefits for staff. He further noted that years ago, library funding was allocated expense-by-expense per the County's budget; however, it is now given in a lump sum to the libraries for them to spend as they see fit.

Mr. Phillips expressed concern that pornography filters have not been installed on the computers in the libraries.

**M 081 04

Mr. Dukes emphasized that the libraries should seek funding from the municipalities and the State. It was noted that as municipalities approve new developments, the resulting number of new residents impacts the libraries.

**Ellendale

Mr. Stickels reviewed Sussex County library funding amounts over the past ten years. He pointed out that each of the libraries has received approximately a 200 percent increase in funding over that time period.

The County Council discussed whether the funding should be perpetual or whether it should be considered each year. Mr. Cole supported the permanent concept. The other Councilmembers expressed that they believe the funding would be allocated annually, however, they thought it would be wise to make that decision during the budget process each year, based on the County's economic growth and financial condition.

A Motion was made by Mr. Rogers, seconded by Mr. Jones, to authorize the Budget

Committee to allocate the Capitation Tax to the local libraries for Fiscal Year 2005.

Ms. Wendy Baker, President and Chief Executive Officer, was present on behalf of the Board of Trustees of the Sussex County Land Trust. She asked the County Council to consider selling to the Land Trust a portion of the Jay Cannon lands recently purchased by the County for the Dagsboro – Frankford Sanitary Sewer District. The lands purchased are contiguous with the exception of the 37.65 acre parcel, which is divided by a road. The owner of the land has expressed that he did not wish to see the property developed and he did not want to fragment the sale.

Ms. Baker stated that the Land Trust is interested in purchasing the 37.65 acre parcel at a price of \$35,000 per acre. She further stated that the Board met on this date and unanimously approved a motion to proceed with making an offer to the County for this purchase.

It was noted that the property is currently being farmed. Ms. Baker stated that the Land Trust has not determined how the property will be used; however, she noted that they are looking into future programs with the possibility of public access. It was emphasized that the property will remain as open space.

Mr. Stickels advised that this matter would take two separate approvals from the County Council: (1) approval of a motion to sell the property and (2) approval of the allocation of funding that the County Council made available to the Land Trust for the purchase of land.

Mr. Phillips requested that action be deferred on this matter. He made this request since there had been no opportunity for public disclosure.
